

Converting Artemis Shares to Depositary Interests

Complete documentation / instruct broker

Shareholders who wish to convert their Shares held on the Australian register into DIs can do so:

1. directly in the case of a holder on the issuer sponsored sub-register by completing a Depositary Interests Issuance (Australian Register to UK DI Register) form (available at: www.investorcentre.com/au), and returning this with original certified ID, to Computershare's Global Transaction team (details below). Note, issuer sponsored holding numbers are prefixed with an 'I', and are referred to as Securityholder Reference Numbers (SRNs). It is important that the holder completes the form in full, and in particular the CREST participant details in full within the DI Issuance Instructions section. A shareholder's broker can assist them with providing this information.

The completed and signed DI issuance form and the shareholder's certified ID are to be sent to Computershare by post or email:

Computershare Limited
Global Transactions Team
PO Box 103 Abbotsford
Victoria 3067 Australia
E: gtuau@computershare.com.au

OR

2. by contacting their sponsoring Australian CHESS Participant to request a conversion of their Shares into DIs issued in the UK. This is relevant to shareholders that hold their Shares on the CHESS sub-register. CHESS holder numbers are prefixed with an 'X', and are referred to as Holder Identification Numbers (HINs).

On the Depositary Interests Issuance (Australian Register to UK DI Register) form in the "DI issuance and delivery instruction" section a shareholder will be asked for "CREST Participant" information. The CREST Participant is the UK broker in this case, so the shareholder's UK broker should be able to provide the information required. If shareholders have any questions about the DI conversion process from Australia to the UK, they can contact Computershare's Global Transactions team on:

Giuseppe Petulla	03 9415 5089
Stephen Creed	03 9415 5215
Jacqueline Hainsworth	03 9415 5328

E: gtuau@computershare.com.au

Confirmation that DIs have been created - advised by broker

It is expected that once a valid and complete instruction is provided the process of converting a shareholder's Artemis Shares into DIs will be completed within 24 hours. The shareholder's broker will provide them with confirmation that they are now the holder of an equivalent amount of DIs in CREST, which are issued on a 1 for 1 basis with Artemis Shares. After this time Artemis shareholders will be able to trade, subject to having a broker who can facilitate a trade on AIM, with such trades settling in the form of DIs.

Converting DIs to Artemis Shares

Holders of DIs can, at any time, elect to cancel a DI and transfer to a direct holding in Artemis Shares. Shareholders should contact their broker who should be able to initiate a CREST withdrawal into the holders name by withdrawing the DIs from CREST This will instruct Computershare's Global

Transactions team to issue the Shares in their name on the Australian share register on either the CHESS or issuer sponsored sub-register. Once the Shares are issued on the Australian share register, the holder will be issued a holding statement as evidence of ownership and be able to trade on the ASX.

If shareholders have any questions about the DI conversion process from the UK to Australia, they can contact Computershare's Global Transactions team on:
